Friday: Thai martial arts around £700

Transport costs/minibus/coach hire approximately £200 for hockey and cricket competitions

Children to contribute £5 towards paid clubs.

Total spend £3000 minus child contributions.

In addition, the extra spend of over £8000 is set aside for improvement in swimming lessons (hire of the whole pool and instructors) as a result of falling achievements and confidence. This is a new venture for our school where we are offering opportunities that are over and above for the children in Year 2-6.

£1000 paid to Nigel Edwards for our yearly sports package (to enter competitions, CPD, festivals and interhouse competitions)

## Sustainability

With the sport premium fund due to end in 2020 we are planning how we will be able to sustain the provision of sport and P.E in our school.

- Staff to use their planning and knowledge to teach lessons in P.E after they have received their CPD in a chosen area.
- Children have been given sufficient encouragement to continue to participate in clubs, events and competitions at the level we have achieved.
- To continue to achieve the gold status in the Sainsbury's school games award. We have one more year to achieve gold (4 years) before we can go for Platinum status.
- With the support of lunchtime staff (who have received training), continue to improve children's fitness and participation at break and lunch times.
- To continue to promote leadership in children via playground leader training and active literacy course as well as change for life champions and house captain leaders for inter house competitions.

### Impact of spend to date

- Continued participation in sporting activities in and out of school using a range of different sporting opportunities.
- Additional opportunities to partake in competitions and festivals.
- Increasing staff confidence in their P.E teaching
- Increased participation in leadership roles for children in C4L, playground leaders, Active Literacy leaders and inter house competitions assisted and recorded by our house and vice captains.
- The introduction of the breakfast club IT equipment has helped to increase physical activity, enjoyment and teamwork in our dining room.
- An increase in physical activity during the school day (i.e daily mile and go noodle) from our training to deliver more physical levels in lessons.
