Step 2: Your Group worker will contact you to arrange a home visit. This is a great opportunity for them to get to know you a little better and to give you more details about the group. It also gives you a chance to ask any questions or raise any specific concerns about your child

Step 3: Attend our friendly interactive group sessions.

Step 4: Keep in touch - Unlike other family groups we do not stop support when you complete the sessions. If you would like us to, we can remain on hand to help you with any needs you have around parenting - we can even come and visit you at home.
