Opportunities for Life

This policy outlines the teaching, learning, organisation and management of the marking and feedback procedures at Hanley St Luke's C of E Primary Academy.

At Hanley St Luke's our Mission is to:

- Promote Christian belief and practice and to encourage the moral and spiritual development of all people in our school.
- Develop in each person a sense of self-worth and the necessary qualities to become a full and valuable member of British society
- Encourage the full academic potential of each child.
- In our school we promote honesty, courtesy, kindness, perseverance and respect. We celebrate all our many differences and diversity, believing each individual is special and valued by God.

Digital technologies have become integral to the lives of children and young people, both within schools and outside school. These technologies provide powerful tools, which open up new opportunities for everyone. They can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. Young people should have an entitlement to safe internet access at all times.

This acceptable use policy is intended to ensure:

- that young people will be responsible users and stay safe while using the internet and other communications technologies for educational, personal and recreational use.
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- that parents and carers are aware of the importance of online safety and are involved in the education and guidance of young people with regard to their online behaviour.

The school will try to ensure that learners have good access to digital technologies to enhance their learning and will, in return, expect the learners to agree to be responsible users. A copy of the learner acceptable use agreement is attached to this permission form, so that parents/carers will be aware of the school expectations of the young people in their care.

Parents are requested to sign the permission form below to show their support of the school in this important aspect of the school’s work.

Use of Digital/Video Images

The use of digital/video images plays an important part in learning activities. Learners and members of staff may use digital cameras to record evidence of activities in lessons and out of school. These images may then be used in presentations in subsequent lessons.

Images may also be used to celebrate success through their publication in newsletters, on the school website and occasionally in the public media. Where an image is publicly shared by any means, only your child's first name/initials will be used.

The school will comply with the Data Protection Act and request parent's/carer's permission before taking images of members of the school. We will also ensure that when images are published that the young people cannot be identified by the use of their names.

In accordance with guidance from the Information Commissioner's Office, parents/carers are welcome to take videos and digital images of their children at school events for their own personal use (as such use is not covered by the Data Protection Act). To respect everyone's privacy and in some cases protection, these images should not be published/made publicly available on social networking sites, nor should parents/carers comment on any activities involving other learners in the digital/video images.

Parents/carers are requested to sign the permission form below to allow the school to take and use images of
