A selection of comments made by the children:

A selection of positives

- The teachers are very fair and kind and if you have a problem you can talk to them
- I love this school so much. I would rather go to school on weekends too! We have the best teachers in the world and I love every lesson too.
- I enjoy being at school. Sometimes my class hasn't got the best behaviour but we try.
- I think the teachers do a great job of teaching children
- My teachers are very friendly. I always feel welcome in my class.
- I like being in this school because the teachers are kind and teach us what is right and wrong
- I like the over and above board. If I get on it I am proud

A selection of responses to reflect on or action

- Fix the climbing wall (**When funds allow it will be**)
- I love school. I hate it when people waste learning time. (**So do we and we take action**)
- I would like to add more activities on the yard (**There are lots already but we'll discuss at School Council**)
- I like to stay in at playtime and read (**Children need exercise and fresh air but we'll look at this**)
- I like to have discos because they are fun, enjoyable and a time to have a laugh with your friends (**Not all children agree but we will look into when we can hold the next one**).
- I love our school rules but I think there should be more achievements (**We'll discuss this**)
- I think our behaviour is good in class but outside it's not good because people start to argue about who's on and who's not (**Very perceptive and we spend much time trying to address this**).
- More KFC and chicken curry and playtime (**Nice try!**)

***** For these responses it is clear that some children were confused whether to put a really smiley face or a really sad face as on reflection the wording of the question was not great e.g. if I child felt children were not unkind to them that made them happy so they ticked the happy face whereas some children who agreed that sometimes children were unkind to them also ticked the happy face.
